

Job Title: Power BI & Power Apps Consultant

No. of Openings: 2

Location: Rockville, Maryland, USA

Job Description: We are seeking experienced **Power BI & Power Apps Consultants** to join our dynamic team. In this role, you will leverage your expertise to design, develop, and implement innovative business intelligence and app solutions using Microsoft Power Platform. You will collaborate with stakeholders to understand their needs, create impactful dashboards and applications, and ensure seamless integration with existing systems.

This is an exciting opportunity to work on cutting-edge projects, engage with diverse industries, and contribute to the success of our newly established USA branch.

Key Responsibilities:

- Collaborate with clients to gather and analyse business requirements for data visualization and app development.
- Design and develop Power BI dashboards and reports that provide actionable insights.
- Build and customize Power Apps to streamline workflows and enhance productivity.
- Integrate Power BI and Power Apps with other Microsoft tools, including Dynamics 365 and Office 365.
- Optimize data models and implement advanced DAX calculations for efficient reporting.
- Conduct workshops and training sessions to empower end-users with Power Platform tools.
- Troubleshoot and resolve issues related to Power BI and Power Apps implementations.
- Stay updated on the latest features and advancements in Microsoft Power Platform.

Qualifications:

- **Experience:** 5+ years of hands-on experience with Power BI and Power Apps development.
- **Education:** Bachelor's degree in computer science, Information Technology, Business Administration, or a related field.
- **Technical Expertise:**
 - Proficiency in Power BI (data modelling, DAX, Power Query) and Power Apps (Canvas and Model-driven apps).
 - Strong knowledge of SQL and data integration techniques.
 - Experience with Microsoft Power Automate for workflow automation.
 - Familiarity with Azure services and cloud-based solutions.
- **Certifications:** Microsoft Certified: Power BI Data Analyst Associate or Power Platform App Maker Associate (preferred).

- **Skills:**

- Excellent analytical and problem-solving abilities.
- Strong communication and interpersonal skills to collaborate with clients and teams.
- Ability to manage multiple projects and meet deadlines.
- Attention to detail and a proactive approach to challenges.

Why Join Us:

- Work on innovative projects that leverage the full potential of Microsoft Power Platform.
- Collaborate with a talented and diverse team in a supportive environment.
- Access professional growth opportunities through training and certifications.
- Enjoy competitive compensation and benefits tailored to your needs.
